- 4 different security levels to suit your security needs

Avertic Armour

Avertic Armour is a highly advanced, state of the art security panel providing ultra-light and effective protection against a range of power tools. It's unique properties allow it to be used across many security solutions such as cash-in-transit vehicles, panic room construction, military out buildings, secure room dividers, roller shutters and many more.

Example of vehicle panel construction

Example of secure room wall construction

The Avertic Armour Panel is available in 4 different security levels:

Anti-Drill

Contains 8 layers of protective material and provides 18V drill protection

Power

Contains 6 layers of protective material and 2 layers of the anti-cut material. It can provide protection against a concrete cutter, chainsaw and 800w grinder

Power +

Contains 4 layers of protective material and 4 layers of the anti-cut material. This product protects against a 1100W grinder, reciprocating saw, concrete cutter and chainsaws

Extreme

The most secure level of this product, contains 2 layers of protective material and 6 layers of the anti-cut material. This level protects against a 2300W grinder, reciprocating saw, concrete cutter and chainsaws

Tailored versions are available to suit security requirements
