WELCOME TO

# Safe Living

**This 2026 Safe Living issue includes exciting new products designed to protect you, your family and your valuables**

Protection for the whole family, your business and your valued possessions with our Home, Professional and Premium security products.

We have a large selection of certified, Police preferred and insurance approved security safes, fire safes, key safes, gun safes, garage and door security solutions.

Our design and luxury offering includes glass display safes, high security safes with watch winders and jewellery drawers.

Embassy Modular Steel Security Walling has been designed, perfected, and manufactured to create the ideal safe room or panic room, protecting people at home or at work. With a wide range of security levels our rooms are designed to provide personal protection, or to secure art, weapons, cash, and valuables, meaning we have a solution for all home and commercial applications.

No secure room or building would be complete without a high security door; we have this covered with a range of commercial, pocket sliding and beautiful domestic models that will blend in with any home or heritage property.

### Locking Options

Single  
Key

Pin

Model	External (HxWxD)	Internal (HxWxD)	Weight	Volume	Guns
Gold 5	1400 x 450 x 440	1300 x 350 x 320	365kg	146L	5
Gold 9	1550 x 650 x 440	1450 x 550 x 320	520kg	255L	9

Add 50mm to external depth for handle and hinges. Ammo box on Gold 9 reduces internal height by 195mm

## Adjustable Plinth

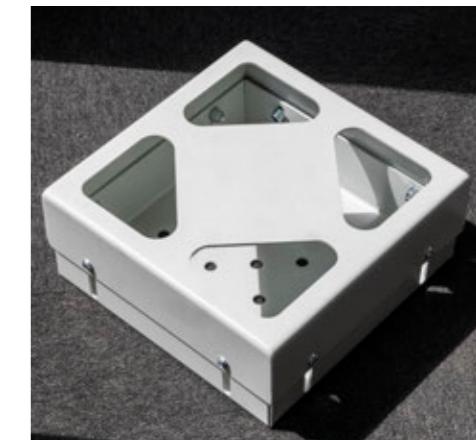

Engineered for strength and flexibility, our Adjustable Plinth is the ideal foundation for securing your safe inside cabinets or confined spaces. Available in two adjustable height ranges—60mm–90mm and 80mm–130mm—this plinth ensures a perfect fit to suit your installation needs. Constructed from durable 3mm mild steel, the top is precision cut, folded, and expertly welded with a 6mm plate underside for added support. The base is cleanly

cut and folded, ready for easy integration. Designed for on-site adaptability, the plinth's top is to be drilled and tapped during installation. Please note: floor and base fixings are not supplied, as these will vary based on the floor and safe type. Robust, adaptable, and built to last—this plinth offers the reliable support your security demands.

## METAL+ DOORS

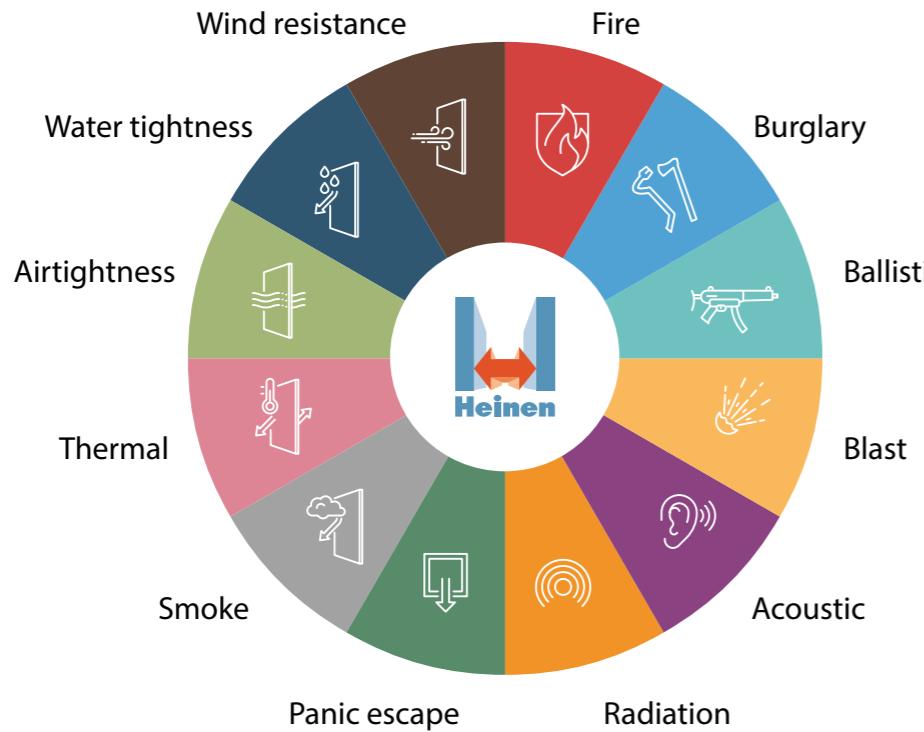

AT THE HEART OF EVERY HEINEN DOOR

From the simplest to the most demanding requirements

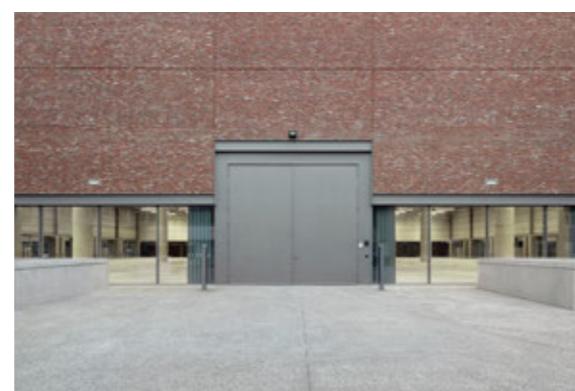

The Heinen heavy duty, high security steel doorsets offer an unrivaled combination of performances. Options include burglary, fire, smoke, bullet & blast resistance, alongside high acoustic & thermal performance as well as options for emergency & panic escape.

The Metal+ steel doors have always remained faithful to their primary objective: to provide protection while guaranteeing stability and robustness that enable heavy-duty use of the door.

### The winning combination for a minimal total cost

- Robustness and extreme mechanical resistance
- Very low cost of use : simple to replace components + low maintenance
- Combining high performance features
- 10 or 15 years warranty defined by the installation method

\*The available performance features are subjected to the installation method. Please contact us.

- Ventilation louvres
- Surface mounted & integrated door closers
- Weather strip systems
- Thresholds
- Glazing
- Alarm connections, lock & door status monitoring
- Door stops & hold open devices

## Profilon offers security, not just shatter resistance PROFILON® security films

### Security Films

Unlike anti-shatter films PROFILON is tested for security protection.

Choose a safety film that meets your security requirements.

Burglary protection films at a glance:

- Burglar resistant properties
- Throw-through resistance
- Resistance class P2A to P4A according to DIN EN 356 - tested and certified on thin 4mm float glass
- RC2 certified - tested on 06.08.2020 bonded to 4 mm float glass
- UV protection

#### Areas of application:

Protecting administration and office buildings, entrance areas, industrial plants, server rooms / IT centres, galleries and museums, financial sector buildings

## Bomb Blast Security Window Films

Choose a bomb blast window safety film that meets your security requirements. PROFILON® ER1 retroactively imparts bomb blast-resistant properties to single and insulating glass.

Bomb blast protection films at a glance:

- Pressure wave protection
- Retrofittable blast protection
- Splinter binding
- Blast resistant
- Explosive inhibitor
- Flame retardant

## Anti-spy and eavesdropping films

Choose a safety film that meets your security requirements. Tell us your requirements and we will find the right film solution to shield radiation in the desired frequency or wavelength ranges.

Privacy shielding protection films at a glance:

- Protection against eavesdropping
- Targeted reflection of EMI
- Adjusted shielding areas
- Data security
- Radiation block
- Retrofittable

## Vehicle security

Choose a car safety security film that meets your security requirements. Car safety films reduce the risk of injury and damage.

Vehicle protection films at a glance:

- Burglary protection
- Occupant protection
- Bullet resistant properties
- Tested by the MPA
- Resistance classes P2A to P4A in accordance with DIN EN 356
- Tested and certified on thin 4 mm float glass

# PROTECT YOUR FAMILY AND VALUED POSSESSIONS

WITH AN EMBASSY SAFE / PANIC ROOM.

With over 30 years' experience providing high security physical protection products, Burton Security is an expert in its field. We work with you to provide a bespoke solution to protect you and your family against violent attack. Whether your risk is an aggravated burglary, a targeted kidnap or attempt on life, we have a solution for you.

## EMBASSY MODULAR STEEL SECURITY

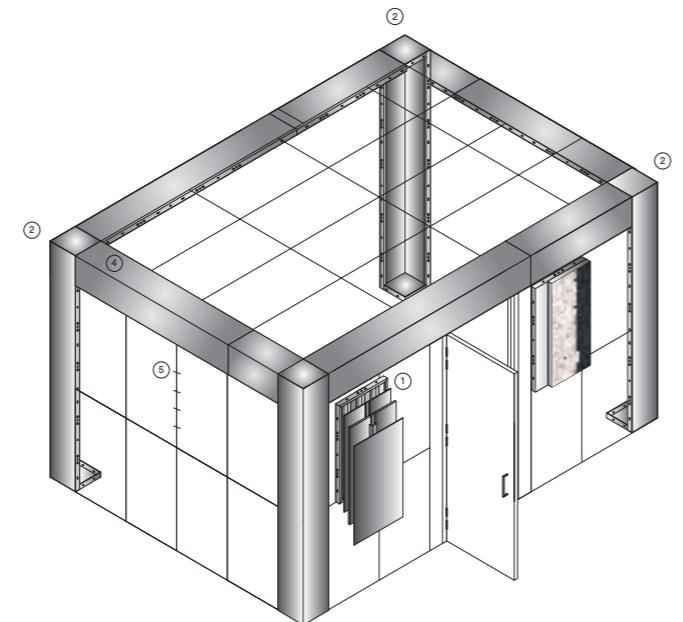

*Walling*

A safe room, or panic room as they are often called, provides a safe hiding place for your loved ones until your security team or the emergency services can be contacted.

Coordinating directly with your interior designer and architect and security consultant, ensures that we identify the protection level required to create safe rooms that are attack resistant, bullet proof, functional, safe and aesthetically pleasing.

We have a choice of security rooms and walling levels to protect against physical attack tools and ballistic weapons, such as pistols, handguns, and rifles. Additionally, our range of luxury armoured and sliding doors can be hidden from view, something that can be specified during the design process.

## PRIVATE RESIDENCES, LUXURY APARTMENTS, YACHTS AND OFFICES

An Embassy safe / panic room or a vault can be built as a stand-alone room or we can discreetly convert existing areas of the home, such as bedrooms, walk in wardrobes, guest rooms, ensuites, living rooms, offices, and garages to keep your family and valuables safe from intruders.

Our designs include hidden armoured doors, manual or powered sliding doors, access control and window protection such as shutters, bar sets and bulletproof glass for the highest level of protection.

Embassy panic rooms are ideal for high-net-worth individuals, dignitaries, and celebrities wanting to avoid life and death situations and protect the family in setting such as private residencies, holiday homes, luxury apartments, and super yachts.

For larger ground floor installations designed to protect collections, art, classic cars, jewellery, precious metals, cash, and important documents we also have a range of strongrooms and vaults made from heavier steel and composite constructions.

### High Security Doors

Armoured security doors at the property boundaries can provide an additional layer of protection and time critical safety so you can reach your panic room in safety!

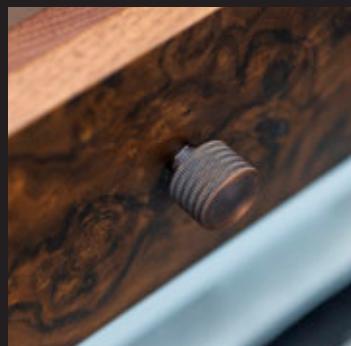

### Embassy Design

Enables architects and specifiers to embed secure design from the outset, creating the perfect balance of security and interior design.

Embassy modular security steel walling and rooms installed for maximum protection worldwide.
